

Year 6 Transition Learning Projects

WC 13.07.2020: Valuing Your Achievements

This week's learning project focuses on your child's successes throughout their time at school. It will give them the opportunity to reflect on what they have enjoyed and achieved throughout their time in primary school life.

Transition Activities:

Monday- Your child has achieved so much at primary school and now it is time to reflect on what makes them proud. Ask your child to create a 'Wheel of Achievements' that displays their proudest moments. Your child can label each section with headings such as 'Maths', 'English', 'P.E', Music, 'Friendships', 'Hobbies'. Inside each segment your child can either draw a picture or write a sentence to show what they are proud of. They can decorate it using bright colours so their wheel shines with pride.

Tuesday- Some of the best memories of childhood are the silly ones that make you giggle. Ask your child to create an amusing comic strip of a funny moment from their school journey. Encourage them to include thought bubbles and speech bubbles to bring the comic to life. Comic strips are usually vibrant in colour so ask your child to use bold colours for their illustrations. If they cannot recall a funny moment, ask them to create a comic strip of any key moment that is significant to them.. For example, meeting their best friend for the first time, competing in Sports Day or a favourite school trip.

Wednesday- Ask your child to think about what makes them special. What qualities do they possess which they think make them unique? Ask your child to independently write 5 down which they think are the most important.. As a parent or family, you should also come up with 5 qualities which you think make your child special. Come together to compare the qualities listed and explain why each person chose the qualities they did. Your child could then write their three best qualities down, explaining why they chose these.

Thursday- Not only is it important for your child to value their past achievements, it is important for them to plan to achieve new goals. Encourage your child to create a 'bucket list' of things they wish to achieve in their first year of secondary school. This could include points such as making new friends, taking the bus to school by themselves etc. Once they have completed this, ask them to create a bucket list of things they hope to achieve before secondary school begins. This could include points such as learning to tie a tie, completing a [Summer Reading Challenge](#), baking a cake and more.

Friday- Coming together to celebrate the end of Year 6 is an important ritual for your child. Today's task metaphorically brings the children together by joining their memories in a jigsaw. Ask your child to use our puzzle piece template to write their best moment of Year 6. Tell them that all of Year 6 are completing this task and all of their individual memories on the jigsaw pieces will slot together to create one fantastic 'Jigsaw of Memories'.

Additional Learning Resources Parents May Wish To Engage With:

- There are some useful tips about coping with anxiety in children on the [NHS website](#)
- [This website](#) provides some useful tips to parents of pupils transitioning to Secondary School
- Useful tips from [The School Run](#) website, which also provides general information and advice about your child's learning journey.

- [This website provides](#) advice for supporting pupils with additional needs in transitioning to Secondary School
